Lisa M. Hardwick

Research Scientist
Baxter Healthcare
Email: lisa_hardwick@baxter.com

Lisa M. Hardwick is a graduate of Indiana University and has worked at Baxter BioPharma Solutions for 16 years. Her background in the pharmaceutical industry includes experience in QC laboratory, quality assurance, regulatory affairs, and currently as a development scientist. Her specific focus is supporting the Baxter Center of Lyophilization Excellence where she has been involved with several client, clinical, and commercial freeze-dried formulations and processes. She has co-authored several publications in lyophilization science and has been an invited speaker at several lyophilization technical conferences.
