

**Mr.Sajal M. Patel**

Scientist  
Dept. of Formulation Sciences,  
MedImmune, LLC  
1 MedImmune Way,  
Gaithersburg, MD 20878

Email: [patelsaj@medimmune.com](mailto:patelsaj@medimmune.com)

Dr. Sajal Patel is currently working as a scientist at MedImmune, LLC. in the Formulation Sciences group. In his current role Dr. Patel is responsible for formulation and process development of liquid/lyophilized biologics with a focus in lyo technology development. He received his M.S. in Chemical Engineering from University of Southern California and Ph.D. in Pharmaceutical Sciences from the University of Connecticut. His thesis work was focused on freeze drying process design and control. Dr. Patel's research interests remain in this area and include application of QbD to the development and manufacturing of a lyophilized drug product.
