**Dr. Stefan Schneid**

University of Erlangen  
schneid@freeze-drying.eu

Stefan Schneid, Ph.D., is currently a post-doctoral research fellow in Dr. Henning Gieseler's Freeze-Drying Focus Group at the University of Erlangen. He has authored several papers on Process Analytical Technology in freeze-drying and has presented in numerous workshops on lyophilization in Europe, the USA and India.

Dr. Schneid performed his undergraduate studies of pharmacy at the Ludwig Maximilians University in Munich, Germany. Following a six months research period at Nova Southeastern University, Florida, he started his Ph.D. studies under supervision of Dr. Gieseler in Dr. Pikal's lab at the University of Connecticut in April 2006 and continued his research at the University of Erlangen from April 2007. Dr. Schneid received his Ph.D. in Pharmaceutics from the University of Erlangen in 2009 for his dissertation title "Investigation of Novel Process Analytical Technology (PAT) Tools for Use in Freeze-Drying Processes".
