

FREEZE-DRYING OF CO-SOLVENT SYSTEMS: RATIONALE OPPORTUNITIES, AND APPLICATIONS

ABSTRACT:

This Tech Brief introduces the reader to the Freeze-Drying of Co-Solvent Systems prior to the LyoLearn Webinar of the same name. The webinar will show why co-solvents are used during freeze-drying, which advantages they offer, and what the requirements for a solvent to be used during freeze-drying. Based on a lot of examples, opportunities offered by co-solvents and applications of co-solvents will be discussed. The webinar will end by describing how the freeze-drying process can be adjusted in such a way that different types of products can be obtained.
